

Metropolitan Branch Trail: Fort Totten to Takoma

Project Fact Sheet - May 2020

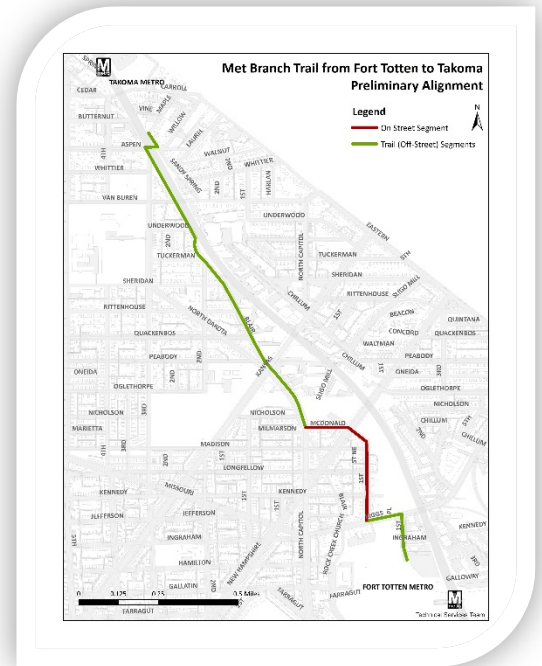

About the Project

DDOT is completing the design of the remaining sections of the Metropolitan Branch Trail (MBT). The MBT is an important transportation route, providing connections to home, work, and play. The MBT has been constructed in sections. When fully completed, the MBT will be an eight-mile trail that runs from Union Station to Silver Spring, MD. The latest section being designed connects the **Fort Totten Metro Station** to the **Takoma neighborhood** in NW Washington, DC. The preliminary design for this section was completed in 2016. DDOT with its consultant team is currently completing the final design of this section.

The key elements of the MBT under design include:

- New off-street and on-street trail segments
- Traffic calming features
- Storm water and low-impact development
- Traffic signals & Lighting
- Lighting & Utilities
- Maintenance of Traffic plans
- Landscaping plans

Project Team

This project is being designed by DDOT. Samer Alhawamdeh is the Project Manager (metbranchtrail@dc.gov).
